- Enterprise Manager
- GoldenGate
- In-Memory Database Cache
- OLAP
- Partitioning
- Performance Tuning
- Provisioning & Patch Automation Pack
- Real Application Clusters (RAC)
- RMAN, DBCA, DUA, NetCA, OUI
- SQL*Plus, SQL*Loader, Developer
- Warehouse Builder

Maximize the Value of Your Oracle Database Investment

Product Support Overview

Rimini Street replaces Oracle support for Oracle® Database delivering significant cost savings, a higher-value service mix and the ability to avoid costly product upgrades. We support Oracle Database clients around the world in implementations ranging from a single server to large, complex environments with nearly 600 global database servers, and ranging from small data storage requirements to as much as 60TB of storage.

Business Challenges

Oracle Database customers are frustrated with rising annual maintenance fees and costly forced upgrades. They experience disappointing customer service from Oracle, while their maintenance fees are funding Oracle's next-generation systems that they may never use. Additional concerns include improving database performance and availability, and achieving comprehensive database security.

The Rimini Street Solution

Turning the multi-tiered vendor support model upside down, Rimini Street goes well beyond providing standard break/fix assistance. Each client receives personalized service from a senior-level Primary Support Engineer (PSE). In this way, clients have direct access to an expert with their first call. PSEs are available 24 hours a day, 7 days a week, 365 days a year anywhere in the world with an average response time of less than 5 minutes for critical issues. Clients benefit from software fixes as well as a team of experts who focus on interoperability challenges, roadmap planning and holistic security.

Key Benefits

- Extend the life and reduce the TCO of your investment
- Receive ultra-responsive support 24/7/365
- Eliminate forced upgrades yet preserve the flexibility to upgrade when business needs dictate
- Fund IT innovation and drive business growth with savings of up to 90 percent of your total maintenance costs

“The primary driver for switching to Rimini Street was to reduce operating costs associated with our Oracle Database environment. By making this move, we have saved 50 percent on all our previous maintenance and support costs, savings which can now be spent in more value-added initiatives rather than on maintenance of our stable, mature system. We no longer pay maintenance and support to the software vendor as we have done for the last 20 years — those days are over. That cost was no longer justifiable for the value received.”

Michael Milne,
Planning & Architecture manager
 TransGrid

About Rimini Street

Rimini Street, Inc. (Nasdaq: RMNI) is a global provider of enterprise software products and services, the leading third-party support provider for Oracle and SAP software products and a Salesforce® partner. The company offers premium, ultra-responsive and integrated application management and support services that enable enterprise software licensees to save significant costs, free up resources for innovation and achieve better business outcomes. Global Fortune 500, midmarket, public sector and other organizations from a broad range of industries rely on Rimini Street as their trusted enterprise software products and services provider.
